The SQ/2 large character ink jet system prints high quality dot-matrix characters on a variety of products at a cost-effective price. The SQ/2 offers the lowest price per printed character in the industry today. Users can choose between two models: a water-based model for printing on porous surfaces like corrugated cartons, or as a solvent-based system for printing on non-porous product like plastics, stretch wraps, metals and more.

Benefits:

- Run one or two print heads from the same controller
- Easy-to-use software walks you through a series of prompts to program and save messages for printing
- Simple to operate, virtually maintenance-free, and field upgradeable with modular components and options
- Two models: water-based for porous surfaces or solvent-based for non-porous surfaces
- Industrial strength hand-held input device for easy message input
- Ability to run two print heads, allows printing on one or two sides of the product

Jetline Ink Jet Printer

The Jetline is upgraded with software features that coding and marking users need most: virtually unlimited message memory, user definable time and date, expiration date, and sequential code printing, as well as a shift organizer to automatically separate and code different work shifts within your packaging operation. The Jetline also comes standard with a shaft encoder input for packagers using a variable speed conveyer. Again, offering all of the functionality needed for even your most difficult coding and marking applications.

Benefits:

- 4.3" full color touchscreen provides access to the system's internal messages and print functions
- Utilizes Squid Ink's proven microchannel plunger technology
- virtually unlimited message memory, user definable time and date, expiration date, and sequential code printing
- Two models: water-based for porous surfaces or solvent-based for non-porous surfaces
- Industrial strength high impact nylon cabinetry construction
- Compatible with Squid Ink's easy-to-use Orion™ PC Software

Vector XII Ink Jet Printer

The Vector XII large character industrial ink jet printer offers the modularity and versatility that manufactures and contract packagers need. With the ability to print up to 12 lines from 6 print heads, the Vector XII large character ink jet printer has the tools you need to get the job done. 1" and 1 3/4" print head sizes are available offering six print sizes ranging from 1/2" to 1 3/4". The Vector XII system can also be programmed and maintained with a PC through a standard RS-232 port.

Benefits:

- Print up to 12 lines from one controller on a variety of products
- Modular design allows flexibility to add print heads as printing needs change
- Ideal for contract packagers or manufacturers with multiple printing requirements
- Two models: water-based for porous surfaces or solvent-based for non-porous surfaces
- Ability to run up to 6 print heads from the same controller
- Component modularity minimizes downtime; print heads and components can be replaced in less than 5 minutes
- Easy message programming and storage of up to 128 messages for quick retrieval

CoPilot Ink Jet Printer

Squid Ink's CoPilot uses proven Xaar piezo technology to print up to .7" of hi-resolution characters, razor-sharp text, scannable bar codes, and great looking logos at 185 dpi and a 4.3″ full color touchscreen provides access to the system's internal messages and print functions. Messages are created and edited on Squid Ink's easy-to-use Orion™ PC Software and transferred via Ethernet or USB device. For larger applications, multiple CoPilot printing systems can be connected via Ethernet or wirelessly and controlled through one central Orion print station.

Benefits:

- CoPilot uses proven Xaar piezo technology resulting in razor-sharp print
- Available in either oil-based for porous applications or solvent-based for non-porous applications
- Print up to .7" of hi-resolution characters, razor-sharp text, scannable bar codes, and great looking logos at 185 dpi
- CoPilot's 4.3" full color touchscreen provides access to the system's internal messages and print functions
- Compatible with Squid Ink's easy-to-use Orion™ message creation PC software

AutoPilot Ink Jet Printer

Squid Ink's AutoPilot printing system will print up to .7″ of hi-resolution characters, razor-sharp text, scannable bar codes, and great looking logos. Users can run up to two print heads from a single touchscreen controller to maximize efficiency and print on opposite sides of a case if needed. The AutoPilot is capable of running oil-based or solvent-based inks to print on
a variety of substrates. Best of all, AutoPilot's 180 dpi print resolution meets your application needs for quality coding and marking.

Benefits:

- Hi-resolution print at an entry level price
- 30% larger print than competitive systems
- 200ml no-mess ink cartridges
- Ability to upgrade to a 2nd print head
- Message programming via full color touchscreen user panel
- Ability to print on porous and non-porous surfaces
- 180 dpi hi-resolution print
- Message programming via USB or Ethernet
- TUV and CE certified

PZ Pilot Touch Ink Jet Printer

Squid Ink's PZ Pilot Touch is a feature-rich printing system designed to print hi-resolution characters, razor sharp text, scannable bar codes, and great looking logos at 185 dpi. The PZ Pilot Touch offers more options for making your mark: oil-based systems for printing on porous surfaces like corrugated cases, or solvent-based systems for printing on non-porous products like plastics, metals and more.

Benefits:

- Touchscreen message creation and recall
- 185 dpi resolution provides razor-sharp clarity
- Heavy-duty cabinetry and print head bracketry ensure continuous operation in the most abusive industrial environments
- Proven piezo technology ensures uptime and keeps maintenance costs to a minimum
- Two models: oil-based for porous surfaces or solvent-based for non-porous surfaces
- Designed for continuous operation in abusive environments
- Print vertical or horizontal on a variety of substrates
- Up to 4 lines of text per message

Squid TTO

The Squid Ink line of TTO printers offer consistent, high resolution print quality for users in a number of industries including food, healthcare, cosmetic, pharmaceutical and more. When you need to print lot codes, date codes, barcodes, or logos on flexible film, you're sure to find the right solution with Squid Ink's new TTO series of printers.

Benefits:

- Available in 32mm intermittent and continuous models, as well as 53mm intermittent and continuous
- Capable of print speeds up to 500PPM
- 7" full color touchscreen controller provides quick and easy message programming, editing, an recall
- 600 meter length ribbon provides long run times
- Compact design allows for simple mounting to existing form/fill/seal machines, pouch filling machines, or tray sealing machines
