

Clamco Bench Mounted Sealers

For packaging food, coffee, retail & industrial products

Choose the dependable Clamco Bench Mounted Constant Heat Sealer and select a jaw to match your packaging requirements. Available in 12" and 24" seal lengths with flat, serrated, or PTFE covered jaws. This Clamco sealer offers greater durability and operation equal to more expensive methods of sealing.

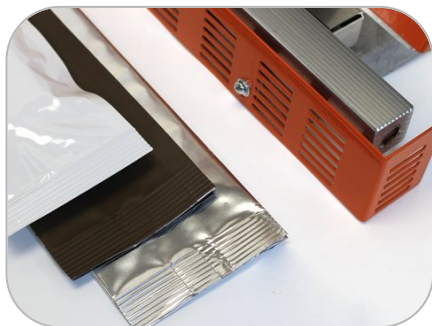

All models are equipped with a foot-pedal assembly, perfect for mounting to the optional stand. The Clamco manufactured stand is designed to complement the sealer; featuring tilt top convenience, adjustable height, and a bag rest.

The Clamco Constant Heat Bench Mounted Sealers are made in the USA and include a 1-year limited warranty.

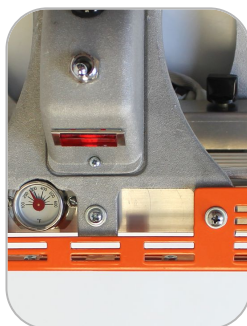

Features

- Choice of jaws: 1" flat 1" flat PTFE covered
1" serrated 1/4" flat PTFE covered
- Thermostat controls sealing temperature of upper & lower jaws for strong, hermetic seals
- All sealing jaw surfaces are heated evenly by durable heating cartridge, eliminating hot or cold spots
- Heat indicator assists in proper temperature selection
- All electrical components are easily replaced in minutes without special tools
- Red safety pilot light warns operator that jaws are hot while jaws are wrapped with seal guards for protection
- Electrical: 120V, 500W for 12" seal length and 800W for 24" seal length

Serrated jaw model makes a horizontal seal just right for cellophane and polycel bags

Unit features heat indicator, thermostat control, pilot light, and On/Off switch

Adjustable Stand Model 825

Designed for use with all Clamco Bench Mounted Sealers

Complete your manual sealing operation by matching our Clamco Bench Mounted Sealer with a Clamco Adjustable Stand. The Clamco manufactured stand is designed to complement the sealer; with a large tray that tilts to a 20° angle. The Model 825 Stand comes with pre-drilled holes to securely mount your Clamco sealer and mount your sealer's foot pedal assembly into operating position. The stand features adjustable height in .75" increments, and multiple positions to mount the bag rest.

The stand is constructed of heavy duty powder coated steel to last through many years of production use.

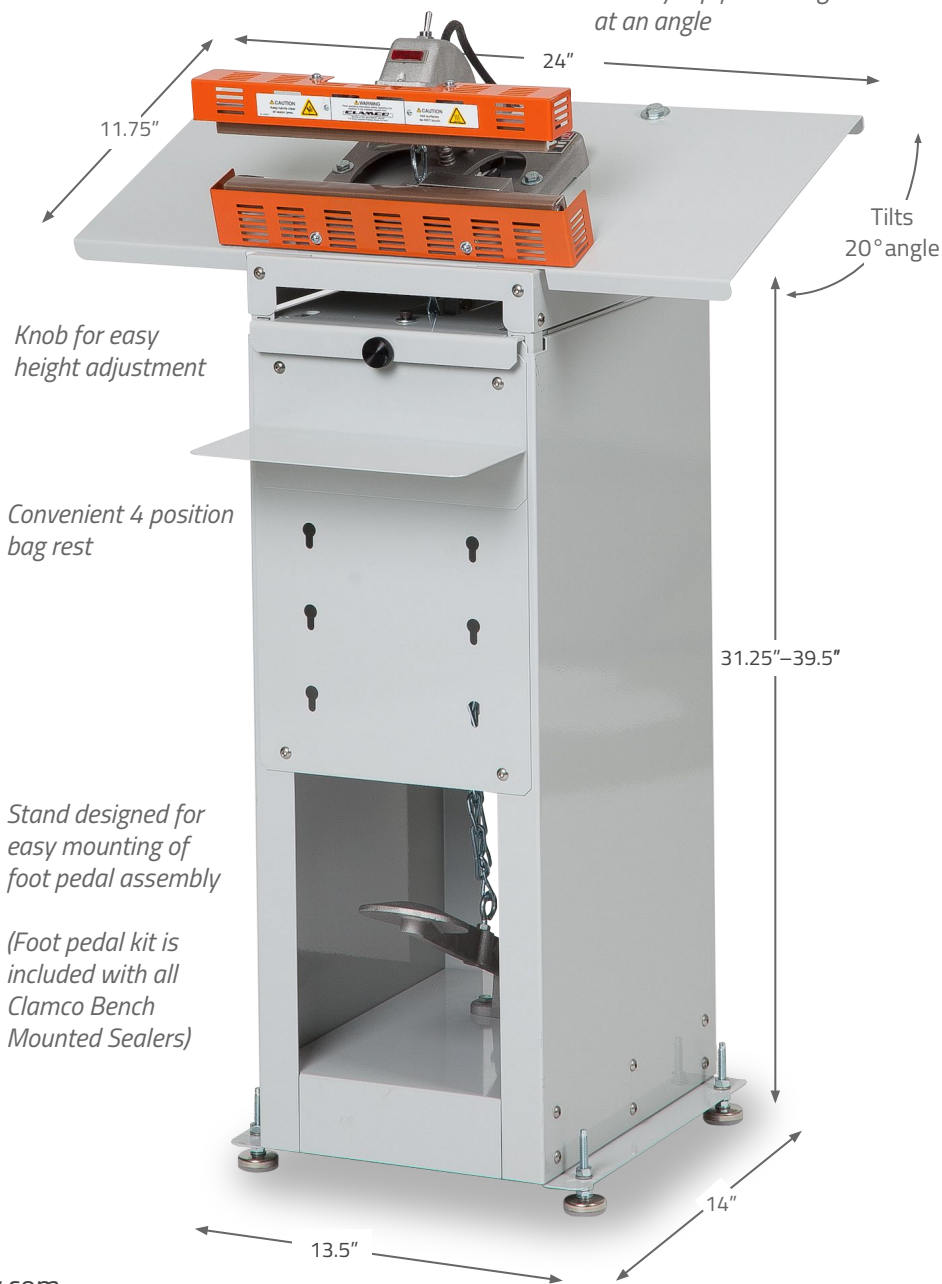

The Clamco Adjustable Stand is made in the USA and includes a 1-year limited warranty.

Stand Features

- Stand height adjusts easily from 31.25" to 39.5" high in .75" increments
- Heavy duty powder coated steel construction
- Adjustable levelers
- 24" x 11.75" large tray for Clamco Bench Mounted Sealers up to 24"
- Tray tilts 20° for sealing at an angle

Stand shown with a Clamco 12" Bench Mounted Sealer

Tilt tray top for sealing at an angle

Knob for easy height adjustment

Convenient 4 position bag rest

Stand designed for easy mounting of foot pedal assembly

(Foot pedal kit is included with all Clamco Bench Mounted Sealers)
